Skills

Next js	React	Javascript	Appwrite
PostgreSQL	MongoDB	Node.js	Express.js
Python	Java	Tailwind CSS	Spline 3D

Projects

1.**Fuzzie**
- A SaaS website that automates your workflow without requiring code.
- Connect directly to Google Drive, Slack, Discord, Notion, etc., and send messages directly from the platform.

1.**E-Commerce Website**
- A personalized website for seamless product purchases.

2.**Google AI (Virtual Assistant)**
- An AI website for user interaction.

3.**Dice Roll Game**
- A fun and engaging game where players aim to reach a score of 50 faster by rolling dice.

4.**Price Tracker Chrome Extension**
- A browser extension to track product prices on **Amazon** and **Flipkart.**

Experience

Full Stack Developer | SMG Infotech, Hyderabad

April 2023 – Present

1) Developed Fuzzie
- A SaaS website for workflow automation using Neon DB for the database, TypeScript, and Next.js.
- Utilized **React Flow** for managing flow.

2) Built Price Tracker (Chrome Extension)
- **Chrome extension with a backend server written in Express.js to monitor product prices.**

Certification

Completed an intensive JavaScript course covering core concepts, ES6 features, and practical applications, providing the skills to build real-world products.
